**MAINE CENTRAL**

**RAILROAD**

**Extension Bonds!**

It is generally well known the Maine Central Railroad terminates at Danville Junction, and from thence to Portland the Road is a part of the Grand Trunk Railway For the use of this piece of Road, (some 28 miles) the Maine Central pays to the Grand Trunk a rental, which, for some years past, has amounted to some $70 000 per annum The Maine Central having leased the Portland & Kennebec R R and thus joined that entire Road with its own under one management has decided to obviate the necessity of using the Grand Trunk road from Danville to Portland by building an Extension of its own road, from Danville Junction to CUMBERLAND, using the Portland and Kennebec R R, from thence to Portland

This Extension has already been surveyed and more than three fourths of the requisite grading and all the stone work and masonry completed and the road will be ready for the iron, (already contracted for) in the Spring, and prepared for business soon afterward To aid in accomplishing this work the Maine Central Railroad has issued its Bonds to the amount of $1,100 000 payable in thirty years from October 1st 1870

These Bonds are secured by a First and only Mortgage upon the Extension and the Entire line of the Maine Central with all its property (which would readily sell for three times the amount of its Bonded debt) is holden for the payment of the Interest and Principal of these Bonds

The security is

**UNQUESTIONABLE.**

A large part of this issue has already been taken in this and other States and the remainder is offered for sale at a price which makes them one of the most desirable investments in the market

The Bonds bear Interest at the rate of six per cent per annum and both

**Principal and Interest payable**

**IN GOLD.**

Free from Government Tax

Coupons Payable in Boston, April 1st and October 1st in each Year

When it is considered that by building this Extension the Road can have a complete line of its own through to Portland at an outlay of some $30 000 (gold) per year for interest instead of paying some $70 000 per year rental to another corporation the commendable economy of the undertaking will be apparent

The local business alone on the Extension will be profitable besides the advantage to the Road of thus being connected by the same gauge with all the great Railroads of the Country

Bonds issued in denominations of

**$500 and $1000 each.**

The highest market price will be allowed for Government State and City Bonds, Bonds of other Railroads and Corporations and all marketable securities in exchange for above

This line of Railroad will have very special advantages for both local and through business besides such superior railroad connections as will secure to it a large portion of the carrying trade of the great Northwest The

**First Mortgage**

**7 Per Cent. Gold, Bonds**

which are issued upon this road are limited in amount to $16 000 per mile (while many roads issue from $30 000 to $40 000) and are offered at 90 and accrued interest in currency About two millions and a half of these bonds have already been disposed of leaving but a small balance unsold which are being rapidly taken

The most experienced financiers agree that First Mortgage Bonds, to a limited amount upon a finished railroad which is well located for business, are one of the very safest forms of investment.

Parties desiring to secure a first class security based upon a railroad practically done and in the hands of leading capitalists who have a large pecuniary and business interest in its success will do well to apply at the office of the Company or any of its advertised agents for a pamphlet and map showing the characteristics of the enterprise

Holders of Government Bonds may exchange them for Central Iowas at a large present profit beside a handsome increase of interest for a long term of years Parties making such exchange will receive for each $1 000 Bond a $1 000 Central Iowa Bond and the following difference in cash (less the accrued interest in currency upon the latter bond) and in annual interest, this calculation being based upon market prices of December 27th 1870

PORTLAND AND OGDENSBURG RAILROAD

**First Mortgage Bonds**

*Principal and Interest Payable in Gold.*

The undersigned have authority to offer for sale the Bonds of the Portland & Ogdensburg Railroad Company at the very low price of 90 with accrued interest in currency

This road is now completed to West Baldwin and trains are running to that point 33 miles from Portland Beyond West Baldwin the road is graded to Fryeburg 50 miles from Portland, and the rails will be laid to that point as early in the spring as the weather will permit From Fryeburg the road is under contract to Conway N H to which point trains will run in July 1871

The road has thus far been built and equipped from cash subscriptions to the Capital Stock but to complete it to Bartlett N H and to provide additional equipment for its increasing business the Company has issued bonds to the amount of $800 000 secured by a mortgage of its entire property to the following Trustees

WOODBURY DAVIS
SAMUEL E SPRING
WESTON F MILLIKEN

We now offer these Bonds for sale, and confidently recommend them as a safe and profitable investment for these reasons

1 **Low Price.** At the present value of U S Bonds these Bonds pay one per cent more interest in gold on the investment

2 **Ample security** The entire mortgage upon the road when completed to Bartlett will be only $12,500 per mile, a smaller incumbrance than upon any other Railroad in Maine, with a single exception and less than the value of its rails and equipment

3 **Large and profitable local traffic** The business upon the line already completed more than meets the expectations of its most sanguine friends, and secures beyond a doubt the interest on its Bonds The line is the natural outlet of some of the finest water powers in the state, on the Presumpscot and Saco rivers, hitherto unimproved on account of the difficulty of reaching the sea board. It taps the large interior navigation of Lake Sebago and its tributaries, over 34 miles of inland waters, drains a very large agricultural district lying on the shores of Lake Sebago and on the banks of the Ossipee and Saco rivers, and penetrates the heart of the White Mountains at Conway and Bartlett the most popular summer resorts of the region

4 **Prospective connections** This road is to form part of a trunk line from Lake Champlain to the seaboard Its sister Corporation in Vermont is rapidly building the Western Division of the road, from Swanton to the Connecticut river, and the entire line, when completed will be the shortest connection between Ogdensburg, the great distributing point of the lakes, and tide water

### PUBLIC ADVANTAGES OF MANUFACTURES

The Kennebec Journal publishes the following as one of a series of papers by Walter Wells Esq on the encouragement of manufactures

In stating the effect of manufactures upon the value of land we observe land like any other resource or commodity is valued in proportion as it enables the owner to ... money Land in New York city has sold at the rate of three million dollars per acre and in London at ten million dollars per acre The flinty and stony soils of Massachusetts average $60 per acre in the market because a quick sale for every product is afforded the cultivator by the numerous factories in every hand The rich deep limestone lands of the Aroostook are worth but $1.25 per acre and that chiefly only nominally because the consumer is so far away When manufactures are established in any district adapted to their reception once every pound of ore every cubic foot of granite every square yard of slate every load of clay for bricks or gravel for embankment or streets assumes a value before unknown Last fall throughout this region the fences bore posters offering fifty cents per ton for those curses of the farmer common field stone for ballast for the Kennebec turn, and the Hallowell quarries disposed of their chips and debris hitherto only a nuisance by the hundreds of tons for the same purpose Every stick of wood in the forest, suitable for lumber for fuel for charcoal, every pound of flax or wool brings increased return the fruits of tree, shrub or vine too perishable to transport, find ready sale at hand the morning market wagon converts into cash the pumpkins cabbages beets the windfall apples and other products that before could not be sold at any price straw sells for use in the paper mill for more than the best hay would formerly command each operative or artisan withdrawn from the field and from competition with its cultivator, calls upon the farmer for about a ton of food per annum including the waste and his dependents in their proportion The farmer takes money His land rises in value His buildings and farm equipments sympathize in the increased valuation Farms ten miles distant from Lewiston already sell for seventy five per cent more than they would bring had not the mill wheels of that city been set in motion and farms near the manufacturing towns of Massachusetts Rhode Island Connecticut and New Jersey approximate metropolitan prices

If Maine does not produce its manufactures the *strength of its land* will be sent abroad for those manufactures ... throughout the year the strength of our soil leaves us in the droves of cattle, the flocks of sheep the schooner loads of hay and potatoes that help feed and fatten other States, Ireland tried this same thing In the first three years after the passage of the Act of Union the export of grain from that country was 300 000 quarters, increased to two and a half millions at the end of thirty years or 2 500 000 bushels, and cattle sheep and dairy products were exported to the value of millions of dollars Thus the life of her land has been sold for cotton and wool manufacture which he should have produced herself for copper lead and iron which are abundantly found within her borders Accordingly estates ... acres have sold for five cents an acre and over extensive districts land has ceased to have any value The same practice in Turkey has so brought down the price of land that ... where it was once the garden of the ... have sold for ... square and farms near ... have changed hands for six cents an acre ... this policy Maine ... freshly opened territory already the theatre of ... and partial ... In some localities farms sell for less than the cost of the buildings or even the stone walls upon them A the returns for labor upon the exhausted soil become more meagre the cultivator is seen flying from the land he has ruined, thus verifying that inexorable law so powerfully announced by Carey, that the Nation that begins with exporting raw products ends with exporting men

To stop this process of destruction to help the agriculture of the State, we need—even more than we need additional railroads, or agricultural colleges, or bounties to agricultural societies—*manufactures* We must convert the food now sent from us in its raw state into shirtings and sheetings into cassimeres and doeskins into cloakings and flannels into boots and shoes, into hats and paper, into cutlery and hardware into glass goods household furniture and whatever can be advantageously wrought of human skill In this *transmuted* form the product of our land can be exported, and the land be left richer than before It is Belgium and England the factories and workshops of Europe that have carried agriculture to perfection in the west, fattening their land to more than Egyptian richness, and it is China in the east, austerely reserving her national market for national labor and practicing every art, occupation and industry demanded by her civilization, that has brought out her land from the use of over four thousand years in miraculous fertility and strength A manufactured article is simply raw material food, time and labor, condensed, and changed in form Shall Maine go on importing these of which she now has a vast surplus, and drug her own market to a still deeper stagnation?

It is only the State or nation that manufactures, that can in the necessary interchange of commodities, free itself from the heaviest part of that most terrible and consuming of all taxes the tax for *transportation* It is transportation that devours the substance of the producer like wars or standing armies A ton of corn that would bring at home $4 70 nets the producer nothing at the distance of one hundred and sixty miles, if transportation is effected by road, its value being completely absorbed by the cost of moving By rail it can be transported 1 000 miles But the same ton of corn condensed into cloth or cutlery, or other highly elaborated products can be carried thousands of miles by road and ten thousand by rail, without being fully absorbed The pound of raw cotton that could be carried a given distance for its value could when converted into yarns numbering 350s be transported 170 times further The pound of iron that would hardly be carried a furlong for its value in the raw state could be for its worth in watch-springs, transported at regular rates for freight by rail 12 000 times around the circumference of the globe We cannot of course, produce everything in our State and shall be obliged to continue buying largely from the outside How vastly important that in making payment we be enabled to send a roll of cloth, a box of hats, a package of cutlery, instead of great droves of cattle that fill up whole railway trains, or potatoes and hay that burden whole fleets of sloops and schooners It is the *producer* who foots the bill for freight, as the Penobscot county farmer now realizes, when he gets but sixty cents a bushel for potatoes that bring $1.10 in Boston, or the Aroostook farmer who realizes not over thirty cents per bushel It is thus remorseless tax for transportation that cuts down the value of all the farm product likewise which is not exported If only thirty cents are realized on the hundred bushels sent away, the hundred thousand that are kept at home are worth but thirty cents Practically in the majority of cases, they have no *money* value, for as none wish to buy, none can sell. The Swiss, hemmed in by mountains and surrounding lands, convert their potatoes, spelt, hay, barley-straw, pease, turnips, beets and other coarse product, which it would not pay to send a dozen miles, into silks, laces watches bosom pins shirt buttons, pen knives, razors and other small wares and thus transport them to the ends of the world at trifling costs The Maine farmer, if he would likewise clear himself from the most hungry of all taxes must cram his drove of oxen into a little packet of dry goods and his whole hay crop into a box of ... bles

As already implied in this discussion diversification of industry tends to increase of *population*. Labor follows business Where numerous arts and occupations thrive labor is retained it is attracted likewise and *emigration* spontaneous and steady sets in to swell the home growth of numbers Massachusetts has added nearly a quarter ... to her population in the last decade ... the logical result of a varied industry whose product exceeds one million dollars per day for each working day of the year Why ... Brazil or the La Plata ... ing lands? The immigrants ... rich rural Canada are drawn ... into the State when ... other ample field for ... vain for us to bring in foreign ... our Aroostook lands ... ted that shall keep our ... Without that policy we shall ... the foreigners. Mill wheels ... Penobscot will set and keep ... in motion on the Aroostook ... wash ...

But this branch of our argument ... too protracted ... to form of capacity no profession ... find in the establishment of diversified industries amongst us large and ... We could have better schools ... and school apparatus ... wise as we could pay them ... justify the choice and practice of the profession ... could the ... our industry ... their services ... The tailor the shoemaker ... the carpenter the mason the ... trade the dressmaker the ... wish to earn ... their labor and larger returns ... the blind pauper woman who is ... earn a few coppers by knitting ... difference, when two pairs ... one stand waiting for her work ... in place of one are pitted ... in her humble market

Such are the advantages ... public to the whole public ... leged class from the diversified ... try in its midst Such we ... realized upon the growth of manufactures in Maine Such have been realized ... are realized in so far as ... industries has extended ... the co-operation State or municipal ... invoked for any public ... seem to be properly ... and such as these ... cannot be erected But no ... merit unduly to ... assumed that manufacture ... established largely amongst us would be productive of great public benefit This grant ... points will be now taken ...

## RUMINATIONS OF A RETIRED PHILOSOPHER

In these days, when the minds of ex-office holders are deeply wrought upon by the degeneracy of the party which neglects their services, and each one is engaged in blowing his own little, political bubble, when disappointment assumes the voice of prophecy and predictions of party calamities are uttered in strange places, it is well to note all the signs of times and give due weight to those expressions which may be regarded as exponents of the sentiments of any class or community With this view, we have some pleasure in laying before our readers the reflections of a gentleman who has recently considered the political aspect of the country from a stand point secluded from the distracting cares of business life, and whose deductions are the result of the philosophical devotion of an extensive leisure to higher public affairs of the nation

The writer of the following letter has hitherto confined his efforts within the limits of a special correspondence for The Democrat but as all the new movements look towards the Republican party for recruits, we presume we are indebted to this fact for the present favor and confess to the obligation, as we have not heretofore enjoyed political confidences from this quarter The present letter does not accurately define the political status of the writer upon some of the prominent issues of the day but from its general tone we are justified in assuming that he is an ardent Revenue Reformer and solicitous for the purification of the civil service Without further introduction we present the political philosophy as observed from Hammond Street Hill —

*To the Editor of the Whig and Courier*

Sir —My *political curiosity*, so to speak, has been excited considerable, in reading an editorial in the New York Weekly Herald of Dec 24th headed 'Signs of a Presidential [illegible] race and its terrible dangers to the country also the 'curious document' which was recently given to the public through the Washington Republican by General Butler which appeared in your issue of the 19th instant Taking the suggestions thrown out by these two *feelers of the popular pulse*, in connection with various other shadowings from the newspaper and Congressional *chess boards* I being a genuine Yankee, am inclined to *guess* that the yeast has already been cast into the presidential dough pan, which in '72 will have upheaved present party organizations completely from their foundations, exploding them into fragments and gathering sufficient of these fragments into a new party, under a new name to succeed in the election of a candidate into the Executive Chair, who *shall not* be U S Grant Let the party be entitled the *Constitutional Party*

The following extract from a letter received a few days since from James Wood Davidson, Esq of Columbia S C, may indicate some of the elements which are to enter into the new issues at least in the South Mr Davidson is a literary man a poet and essayist not a politician He is a neighbor of and intimate with Wade Hampton This is the extract

"We *are* fighting a grand battle in S C — one I take it fraught with very heavy consequences to liberty and to man—most of all to the [illegible] It means death to him as a race He has come up to the line of battle, and annihilation is all that can remove him Go he must I am free to confess that the pain with which I at first contemplated this solution of Sambo's destiny has ceased I wish him well but—in Africa, or anywhere that he will not interfere with or impede the industrial advancement of my own race"

The discrimination of the writer is further illustrated by a request for the loan of the following premium exchanges viz *The World*, *The Nation the New York Sun and the* [illegible] We are unable to comply in full as we have some time since found it desirable to drop one of the above papers from our exchange list but those which we have shall certainly be at the disposal of one who will doubtless prove an appreciative reader and even without *The Sun*, we argue striking results when the philosophical meditations which are guarded from intrusion by the officers of the County become stimulated by such hearty political food

The Portland Star's Augusta correspondent indulges in considerable gossip concerning the appointments about to be made by the Governor Mr William Chase of Portland and Thomas Hancock of Gray are applicants for the position of State Liquor Agent The applicants for positions on the Governor's staff either by themselves or friends are Major Sumner of Lubec, Doctor Thompson of Dover J Manchester Haynes of Augusta Elias Milliken of Burnham, Gen Hill of Damariscotta Major Fred Shaw of Paris Gen Roberts and Fred N Dow of Portland

The Portland Advertiser states that Gov Perham will be unable to furnish a detailed statement of the expenses attending Scandinavian immigration to this State until he has the official report of the board which has that matter in charge of which Gen Chamberlain is chairman and which report is promised in a few days It is understood, however, that the total expense thus far, of the Swedish colony is about eight thousand dollars which includes the salary of the commissioner

In the Convention assembled at Philadelphia to urge the recognition of God and Christianity in the Constitution of the United States Rev Dr J H McIlvain, of Philadelphia offered the following, to be used in the place of the present preamble to the Constitution

> We, the people of the United States, acknowledging Almighty God as the ultimate source of all authority and power of civil government, and the moral laws of Christian religion as of paramount authority, in order to secure a more perfect union, &c

Hon James Ponder, who was inaugurated Governor of Delaware on Tuesday last, said in his inaugural address "It is a source of gratification to me that I owe my election exclusively to the votes of the white citizens of the State The honor of the position would, in my judgment, have been diminished, and its possession wholly undesired by me, had that possession depended upon the suffrages of any other class of the community"

THE CENTRAL PACIFIC R. R. It is asserted in San Francisco that the Central Pacific Railroad Company has placed on record a mortgage for $10,000,000 covering all the unsold land its possession in California.— It is generally supposed that the object is to defeat the operation of the bill reported by Mr Lawrence and now before Congress On the other hand a card has appeared from Judge Sanderson, Attorney for the Company, affirming that the mortgage is not made for the purpose of evading any act of Congress, but to serve as a basis for the loan to be used in constructing branches

**The plates for the bonds authorized under the recent funding act are in part prepared for printing, but only proof impressions have thus far been taken. In a few days the Treasury Department will be able to supply all demand.**

## POLITICAL AND PERSONAL.

Governor Safford of Arizona, in his annual message, recommends a war of extermination against the Apaches, and favors the employment of volunteers.

The census returns, from 10 of the largest wards in the city of New York, show a loss of 5853 inhabitants since the former enumeration in August.

The outrages in North Carolina have reached such a pass that more troops are called for to overpower the outlaws Governor Vance's constituency evidently don't want him to get his seat in the Senate

Three hundred prominent officials, citizens and politicians, attended a banquet to Senator Blair at St. Louis, Mo, on Saturday night. Gov Brown and ex-Senator Henderson were among the speakers

Hon Thomas King, a prominent lawyer and citizen of Rhode Island, died at Pawtucket on Saturday, having been stricken with a mysterious malady on a voyage from Cork, Ireland, where he was recently United States Consul

The Alabama State Journal says that "upon a free and fair election, Governor Smith and the Republican ticket would have carried the State (at the late election) by at least from ten to twenty thousand majority"

The officers sent week before last to Clifton Texas, to arrest the Willingham murderers, were themselves arrested and kept confined until the real culprits escaped The parties murdered were Republicans of course

A Terre Haute, Ind, dispatch of the 22d inst, says ex Congressman H D Washburne, Surveyor General of Montana, is dying of a pulmonary disease at his house in Canton, Vermillion County

The programme for the unveiling of Miss Ream's statue of Lincoln in the Rotunda of the Capitol, Wednesday evening, includes addresses by Senators Trumbull and Carpenter, and Representatives Banks, Brooks of N Y, and Cullom

The Harvard Club of New York have elected James E Carter, President, and A W Green, Secretary, and will give their annual dinner Feb 22

The special Committee on the alleged outrages in the Southern States, will commence its investigation to-day Several witnesses from North Carolina, including a son of Ex Governor Holden, who was speaker of the former House of Representatives in that State, have been summoned

A Washington dispatch says that Mr Thornton, British Minister, has semi official ly requested Secretary Fish to inform him whether Collector Murphy was authorized to tender a welcome in the name of the United States Government to the Fenians who lately arrived in New York, who, though they received the Queen's clemency, could not be regarded as other than foes to the British Government

John M Moriarty, President of the Irish Republican Association of Pennsylvania, has sent a congratulatory dispatch to the Irish exiles in New York, proffering them a kindly reception from their brethren in Philadelphia. He advises them to beware of New York politicians, who, he says, woo them but to use them for base and unscrupulous purposes

## WAR NOTES

The following is an extract from a late Paris dispatch

If no speedy relief comes, a climax must soon be reached inside the city Either sorties must be made on such a scale on every side as will hazard all on a single effort, or capitulation sought on best terms obtainable or there will be a terrible row inside the city So far as provisions are concerned, although the reports show enough for two months, yet a few facts prove their scarcity and the sufferings of the poorer classes For instance the prices to-day are as follows —Rabbit, 35 francs chicken, 35 francs, goose, 70 francs turkey, 90 francs butter 30 francs per pound, eggs, 2 francs beet root, 15 francs, prime parts of elephant, 29 francs, horse flesh, 10 francs In addition to the hospitals, the church of St Sulpice, and the Odeon have been partially destroyed by shells The museum of the Luxembourg has received twenty shells within a few hours, and its unrivalled conservatories are totally destroyed

The exasperation of the people is so intense that a French victory now would bring results fearful to contemplate Since yesterday bread has been made of a minimum quantity of flour mixed with rice and other ingredients and there is not sufficient flour for bread after the 10th of this month The troops have received biscuits for the the last five days, in order to save bread for the population Horse flesh will last for thirty days Moveable ambulances have been established in the quarters exposed to the enemys fire and stretcher bearers are working night and day at the guard houses The splendid conservatory of Jardin des Plantes, which cost 600,000 francs has been destroyed, with its rare exotic plants

A Versailles dispatch of the 20th says

The sortie from Valerien which was made by 40 battalions westward of that fortress, was faintly carried out The French suffered great loss, and 500 unwounded men were captured by the Germans Gen Trochu asked for an armistice but was refused The German advance posts however were authorized to grant a temporary truce to permit the French to collect their wounded

A London dispatch states that Mr Gladstone resigns his seat from Greenwich, and Mr Grosvenor retires from Westminster, to make way for Gladstone Childers is paralyzed in the lower part of his body The ministry is going to pieces

## LATEST NEWS IN BRIEF

The mail car of the Central Pacific Railroad was robbed of $10 000 in greenbacks at Alta station on Saturday night while all the passengers and employes were at supper

The discovery under the rail road bridge in Quincy, Mass, on Sunday morning of the dead body of an unknown man, well dressed and apparently 65 years of age, with a severe wound on the back part of his head, induces suspicion that he was murdered and robbed

Investigation into the affairs of the insolvent Monitor Mutual Insurance Company shows a ratio of less than eighteen per cent of assets to liabilities.

Two boys, Thomas Ward and Thomas Bell, were drowned on Saturday afternoon, while skating on the river near Main street, Chicago

Five young men were arrested in Portsmouth, N H, for gambling on Sunday last, and were brought before the Police Court on Monday

TERRIBLE FIRE IN MILFORD MASS A fire in Milford, Monday morning, destroyed Bay State and Alhambra Blocks, including eleven stores, with two dwellings in the upper portion, also Fishers' stable and seven horses. Mrs Newton an occupant of one of the dwellings, was burned to death The stores were occupied by John O. Leary, dry goods, Morse & Wood, boots and shoes; J White, periodicals, J B. Knights, provisions, S A Angell, drugs, S W Heath, dry goods, E P Goodspeed, jewelry, W. Saunders, boots and shoes, and Joel Rice, drugs. The thermometer stood below zero, and it was impossible to control the flames or save the property.

## NEW PUBLICATIONS.

ESTER REID Asleep and Awake; and ISAAC PHELPS, The Widow's Son, are two new books from the press of Henry Hoyt, Boston, and will prove a desirable addition to both Home and Sabbath School libraries. The first is a touching earnestly written history of the religious life of a young and sadly halting Christian, who, awakened to a sense of her duties, becomes an earnest worker in the long neglected vineyard of her Master; the other is a well told story, illustrative of the dangers of self-righteousness. For sale by E. F. Duren.

## NEW MAGAZINES.

THE GALAXY for February has a portrait of Mrs. Edwards author of "Ought we to Visit Her," an interesting serial of which several chapters are contained in this number Pub by Sheldon & Co, New York

We have just received from the publishers, Western & Co, New York, the January number of THE MANUFACTURER AND BUILDER

ANOTHER MURDER. Garrett W Nostrand a wealthy farmer of Jamaica, L. I., was found murdered Sunday morning at Syosset. Two men named Kelley & Lavine, are suspected to have done the deed for plunder.

**DR SCHENCK ADVISES CONSUMPTIVES TO GO TO FLORIDA IN WINTER.**

Having for the last thirty five years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy soundness The first and most important step is, for the patient to avoid taking cold and the best of all places on this continent for this purpose in winter is Florida well down in the State, where the temperature is regular, and not subject to such variations as in more northern latitudes Palatka is a point I can recommend A good hotel is kept there by Peterman Last winter I saw several persons there whose lungs had been badly diseased, but who under the healing influence of the climate and my medicines, were getting well

One hundred miles farther down the river is a point which I would prefer to Palatka as the temperature is more even and the air dry and bracing Mellonville and Enterprise are located there. I should give a decided preference to Mellonville It is two miles from river or lake and it seems almost impossible to take cold there The tables in Florida might be better and patients complain at times, but that is a good sign as it indicates a return of appetite and when this is the case they generally increase in flesh, and then the lungs must heal

Jacksonville, Hibernia Green Cove and many other places in various parts of Florida can be safely recommended to consumptives in winter My reasons for saying so are that patients are less liable to take cold there than where there is a less even temperature, and it is not necessary to say that where a consumptive person exposes himself to frequent colds he is certain to die shortly therefore my advice is go well down into the State out of the reach of prevailing east winds and fogs Jacksonville, or almost any other of the localities I have named will benefit those who are troubled with a torpid liver a disordered stomach deranged bowels sore throat or cough but for those whose lungs are diseased a more southern point is earnestly recommended

For fifteen years prior to 1869 I was professionally in New York Boston Baltimore and Philadelphia every week where I saw and examined on an average five hundred patients a week A practice so extensive embracing every possible phase of lung disease has enabled me to understand the disease fully and hence my caution in regard to taking cold A person may take vast quantities of Schenck's Pulmonic Syrup Seaweed Tonic and Mandrake Pills and yet die if he does not avoid taking cold

In Florida nearly everybody is using Schenck's Mandrake Pills for the climate is more likely to produce bilious habits than more northern latitudes It is a well established fact, that natives of Florida rarely die of consumption especially those of the southern part On the other hand, in New England one third at least of the population die of this terrible disease In the Middle States it does not prevail so largely still there are many thousands of cases there What a vast percentage of life would be saved if consumptives were as easily alarmed in regard to taking fresh colds as they are about scarlet fever small pox, &c but they are not they take what they term a little cold which they are credulous enough to believe will wear off in a few days They pay no attention to it, and hence it lays the foundation for another and another still until the lungs are diseased beyond all hope of cure

My advice to persons whose lungs are affected even slightly is to lay in a stock of Schenck's Pulmonic Syrup Schenck's Seaweed Tonic and Schenck's Mandrake Pills and go to Florida I recommend these particular medicines, because I am thoroughly acquainted with their action I know that where they are used in strict accordance with my directions they will do the work that is required This accomplished nature will do the rest The physician who prescribes for cold cough or night sweats and then advises the patient to walk or ride out every day, will be sure to have a corpse on his hands before long

My plan is to give my three medicines in accordance with the printed directions, except in some cases where a freer use of the Mandrake Pills is necessary My object is to give tone to the stomach —to get up a good appetite It is always a good sign when a patient begins to grow hungry I have hopes of such With a relish for food and a gratification of that relish comes good blood and with it more flesh which is closely followed by a healing of the lungs—then the cough loosens and abates the creeping chills and clammy night sweats no longer prostrate and annoy and the patient gets well provided he avoids taking cold

Now there are many consumptives who have not the means to go to Florida The question may be asked Is there no hope for such? Certainly there is My advice to such is and ever has been to stay in a warm room during the winter with a temperature of about seventy degrees which should be kept regularly at that point by means of a thermometer Let such a patient take his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood I have cured thousands by this system and can do so again Consumption is as easily cured as any other disease if it is taken in time and the proper kind of treatment is pursued The fact stands undisputed on record that Schenck's Pulmonic Syrup Mandrake Pills and Seaweed Tonic have cured very many of what seemed to be hopeless cases of consumption Go where you will you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use

So far as the Mandrake Pills are concerned everybody should keep a supply of them on hand They act on the liver better than calomel and leave none of its hurtful effects behind In fact they are excellent in all cases where a purgative medicine is required If you have partaken too freely of fruit and diarrhœa ensues, a dose of the Mandrakes will cure you If you are subject to sick headache take a dose of the Mandrakes and they will relieve you in two hours If you would obviate the effect of a change of water or the too free indulgence in fruit take one of the Mandrakes every night and you may then drink water and eat watermelons pears apples plums peaches or corn, without the risk of being made sick by them They will protect those who live in damp situations against chills and fevers Try them They are perfectly harmless They can do you only good

I have abandoned my professional visits to Boston and New York, but continue to see patients at my office No 15 North Sixth Street, Philadelphia every Saturday from 9 A M to 3 P M Those who wish a thorough examination with the Respirometer will be charged five dollars The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not But I desire it distinctly understood that the value of my medicines depends entirely upon their being taken strictly according to directions

In conclusion I will say that when persons take my medicines and their systems are brought into a healthy condition thereby they are not so liable to take cold yet no one with diseased lungs can bear a sudden change of atmosphere without the liability of greater or less irritation of the bronchial tubes

Full directions in all languages accompany my medicines so explicit and clear that any one can use them without consulting me and can be bought from any druggist

**Trust what Time has Sanctioned.**

The maxim that the voice of the people is the voice of the divinity may in some cases be open to doubt but the testimony of honest and enlightened witnesses extending through a series of years and all to the same purport is worthy of credence admits of no question Upon such testimony the reputation of Hostetter's Stomach Bitters as an antidote and cure for many ailments is based During the twenty years that it has been before the world innumerable preparations intended to compete with it have gone up like rockets, and come down the extinguished sticks Meanwhile the progress of that incomparable tonic has been swift and steady—always upward and onward like the eagle's flight Its introduction produced a revolution in therapeutics and it proved to be one of those salutary revolutions that cannot go backwards. To day Hostetter's Bitters is one of the most popular remedies in christendom, and commands a larger sale than any other medicinal preparation, domestic or imported, on this side of the Atlantic As a cure for dyspepsia, bilious disorders, nervous affections general debility, and as a preventive of epidemic fevers it takes precedence of every other remedy This fact should teach the ambitious country dealers who endeavor to foist their local abortions on the public in its stead, how futile their small attempts to cajole the community must necessarily be Where the game fish have failed there is no chance for the "suckers"

## The Fighting Severe Around Paris.

## *A Truce Asked to Bury the French Dead.*

## *THE LEADERS IN PARIS QUARRELLING.*

## THE BEGINNING OF THE END.

THE ARMY OF THE NORTH IN FULL RETREAT.

Cambrai, 20,—via London, 21, 1 p. m. Gen Faidherbe, has arrived here with his staff. The army of the North is in full reteat. The Prussians shelled St. Quentin before its evacuation, firing the houses in several places, and causing great consternation.

THE NEUTRALITY OF LUXEMBOURG.

London, 21. Prince Henri of Luxembourg in replying to the dispatch of Bismarck, notices the pledge made on the part of the Prussian government, not to base accusation upon irresponsible acts, and he promises to investigate the alleged breaches of neutrality. This note has been sent to the signatories of the treaty of '67.

THE PARIS GARRISON ACTIVE BUT UNSUCCESSFUL.

Versailles, 20—via London 21. Under cover of a dense fog to-day, the French troops were again massed near fort Mont Valerien, but nothing further was attempted. The Prussian position at Montretout was taken by surprise by the French yesterday, and carried, but was subsequently retaken by the Prussian North Division. The total German loss in both affairs was 20 officers, and 200 men. The prisoners taken by the Germans say that there will be other attacks upon the investing lines, but assert positively that the National Guards will not fight.

ST. QUENTIN OCCUPIED—10,000 FRENCH MADE PRISONERS.

London, 21,—4:30 p. m. A dispatch from St. Quentin, says that the railway station was stormed by the 19th Prussian regiment, and that the town was afterwards occupied. Ten thousand French troops were taken prisoners of whom 2,000 had been wounded, six guns were among the trophies of the victorious Germans.

THE SIEGE OF LONGWY.

A dispatch from Arlon, says that the Prussians are rapidly occupying the approaches to Longwy. A French shell has set fire to and destroyed a farm house within the investing lines; 40 persons perished in the flames. It said that the fire of the garrison has silenced one of the Prussian batteries. There is little news from Paris, though advices to the 18th have been received. The damage by the bombardment is stated to be not extensive, and only a few persons had been killed.

PROVISIONS FOR PARIS.

Large droves of oxen intended for Paris, have passed Rheims, and are ready for the advance of Gen. Chanzy who is receiving reinforcements. The French have established a line of cruisers between Gibraltar and the English channel. Nine vessels have been appointed to the service, six of which are iron clads.

London, 21,—5:30 p. m. The establishment of a Belgian Camp at Lamere is discussed at Brussels.

The bombardment of Longwy is vigorously continued, and the town is on fire. The Prussians have imposed a requisition of 40,000 francs upon the people of Yretot, and as a punishment for the sympathy displayed by them for the French cause, the Mayor of the town of Bolbeck, has been taken as a hostage by the Prussians.

ALL QUIET AROUND PARIS ON FRIDAY.

Versailles, 20, via London, 21—5:30 p. m.—All quiet this p. m., and the troops on both sides remain in their positions. The Prussian loss in the recent sortie was 400, and that of the French was so heavy that they have asked for an armistice of 48 hours, for the purpose of removing their wounded and burying their dead.

FAIDHERBE'S CRUSHING DEFEAT.

Brussels, Jan. 21.

Details of the defeat of General Faidherbe show that the French Army of the North has suffered a terrible blow from which it can hardly recover. The entry of the retreating army into the city of Cambria was a sad scene of disorder. The troops were shoeless and in rags, and the army fragmentary to a great degree.

QUEEN VICTORIA TO OPEN PARLIAMENT.

London, Jan. 22d.

The Observer to-day announces that the Queen will personally open Parliament. The rumor that the London Conference has again been adjourned is untrue.

A DISPATCH FROM THE EMPEROR.

London, Jan. 22.

The Emperor William telegraphs to the Empress from Versailles the 21st—"Yesterday the enemy entirely withdrew into Paris. 15 officers and 250 men were captured at St. Cloud. The number of the wounded prisoners captured at St. Quentin is 9000, besides 2000 wounded taken in the town. The total loss of the French is 15000. The enemy has withdrawn to Valenciennes and Donia. We have again occupied Cambrai.

London, Jan. 22—The bombardment of Paris has been uninterrupted for the last few days. A fire has been opened upon St. Denis.

Munich, Jan. 21—The Bavarian Chamber of Deputies to-day sanctioned the federal treaties by a vote of 102 against 48.

TROCHU'S REPORT OF THE SORTIE.

London, Jan. 23.—The line of battle before Paris, on the 19th, reached from Mount Retout to Lascelle, and the French numbered 100,000 and were supported by a powerful force of artillery. General Trochu in his report says: "The day which commenced successfully did not terminate as we could have wished. The enemy at first were surprised but subsequently concentrated great masses of artillery and infantry, and at three o'clock in the afternoon our left receded. We resumed at night-fall the offensive, but were unable to hold the heights which we had taken. The struggle was sanguinary. We have asked for an armistice."

STROFO DISCUSSIONS IN PARIS.

London, Jan. 22.—World's special advice from Paris states that at Council, Friday, Trochu announced his opinion that if hope for assistance from outside should be disappointed, it would be his duty to surrender before the Germans destroyed public buildings and fired the centre of the city. The civil members of the Council disagreed with Trochu, and he resigned, but again accepted command, after a hot quarrel. The spirit of the populace still undaunted.

BISMARCK TO FAVRE.

Bismarck in reply to M. Favre's request for a safe conduct, has declined to enter upon any such negotiation. His reasons therefor are given in the following summary of the note: Bismarck says presuming that the authority of the provisional government has not been recognized by the French nation, the military government formerly allowed Favre to pass without the prejudicing question of recognition. It is now impossible to give Favre a safe conduct to pass the German lines, because of his declaration that an invitation to take part in the proceedings of a conference would be a recognition of the Republic. In conclusion Bismarck pointedly enquires whether it is advisable for Favre to proceed to London, since interests at stake at Paris for Germany and France completely overshadow the eastern question. Favre had held consultation with the mayors of Paris as to the propriety of his proposed trip to London. The Mayors were divided in opinion, and no decision has yet been made. Paris advices of the 7th represent Favre as seriously ill. The victims of bombardment in killed and wounded already number 89 children, 144 women and 72 men.

## FORTY-FIRST CONGRESS.

### THIRD SESSION.

WASHINGTON, Jan. 23.

SENATE.

Oliver P. Stearns, successor to Senator Norton of Minnesota for the term ending March 4, 1871, took the oath of office.

Mr Sumner presented and had read a joint resolution of the Indiana Legislature, instructing the Senators from that State to vote against the annexation of Dominica.

Mr. Morton reminded the Senate that the resolutions were passed by a Democratic majority. The joint resolutions were ordered to be printed and laid on the table.

Mr Trumbull, from the Judiciary Committee, made a report upon the Georgia Senatorial question, accompanied by a resolution declaring Joshua Hill elected.

The minority report was also submitted by Mr Stewart reviewing the claims of the Senatorial applicants and concluding with a resolution to admit Messrs. Farrow and Whiteley. The reports were ordered to be printed, Mr. Trumbull giving notice that he would ask early for the disposition of the subject.

Bills were introduced as follows:

By Mr. Spencer—To regulate the compensation of pension agents. Referred.

By Mr. Patterson—Regulating the public schools in the District of Columbia. Referred.

A resolution was adopted granting the investigating committee on Southern outrages leave to report from time to time as suits their convenience, and to sit during the sessions of the Senate.

The bill increasing pensions 20 per cent for five years from March 1, 1871, was passed.

The bill to reimburse States for interest &c., on their war loans was referred to the Finance Committee.

Mr Trumbull's bill to relieve Congressmen from importunity, &c., was taken up, and Mr Morton submitted and had read a communication from the heads of departments setting forth that there is no excess of clerical force in any departments; that in some instances there was an increased demand, and as a rule clerks were attentive and competent.

Mr Trumbull replied and was followed by Mr Wilson in favor of the bill as necessary to rid the government of the Democratic policy of "To the victors belong the spoils," and Mr Nye opposing it as uncalled for, when without action the Senate went into executive session and soon after adjourned.

HOUSE.

Bills were introduced and referred as follows:—By Mr. Starkweather of Ct., for a commission to determine the claims for damages to American Commerce by confederate privateers.

By Mr. Niblack, of Indiana,—Resc. of the Indiana Legislature on the subject of annexation of San Domingo.

By Mr. Palmer of Iowa—To connect the telegraph with the postal service. The bill incorporates Gardner & Hubbard, and others as a postal telegraph company for the performance of postal telegraph service under a contract with the Post Master General.

The bill for a military and postal railroad between New York and Washington, came up as the next business in the morning hour, but went over to next Monday without action.

A Resolution was adopted instructing the Committee on Public Lands to enquire into the expediency of giving to each State all the public lands therein that have been subject to sale or entry, for more than twenty years.

Wm. W. Paine, a member elect from Ga., took the oath of office.

Mr. Stevens of N. H., from Committee of Naval Affairs, reported a bill to regulate rank in the navy. It provides for the Staff by creating 15 Medical Directors and 13 Paymasters, 2 Naval Contractors, and 3 Professors Mathematics with the rank of Captain 4 Chaplains with rank of Commander, and minor grades in proportion. Mr. Stevens claimed that the reduction made under the bill would save the Government from $75,000 to $100,000 a year.

Mr. Scofield objected on the ground, that generally there was no practical use in establishing these relative ranks, and the only possible advantage in it was to indicate where officers should stand in funeral processions or presidential levees. There would be as much propriety in assimulating the ranks of senators and members with the Federal Judiciary the principle was wrong in the Republican government, and he opposed carrying it out any further.

Mr. Hale of Me., also argued against the bill, which after further discussion was passed.

Mr. Dawes of Mass., introduced Joint resolution for appointment of commissioners of fish and fisheries of coasts and lakes, which was passed, 127 to 48.

On motion to suspend rules and pass the bill to extend to all States lately in the rebellion, the provisions of the act of July 4th, 1864, limiting jurisdiction to the court of claims failed, 125 to 67, and the House adjourned.

### THE COLD WEATHER ELSEWHERE.

BRUNSWICK, Me., Jan. 23.

The thermometer at Bowdoin College indicated 20° below zero at 7 o'clock this morning.

WISCASSET, Me., Jan. 23.

The mercury was at 10° below zero at 7 this morning, and 1° below zero at noon.

LEWISTON, Me., Jan. 23.

To-day is the coldest experienced for a long period. The thermometer ranged from 16° to 20° below zero.

BELFAST, Me., Jan. 23.

This is the coldest day of the season. At 7:30 a. m., the thermometer was 1° below zero. The bay and harbor are completely free from ice.

EASTPORT, Me., Jan. 23.

The coldest day since Jan. 1866. Thermometer 23° below zero to-day at Fort Sullivan.

CALAIS, Me., Jan. 23.

The thermometer indicates 30° below this morning.

PORTSMOUTH, N. H., Jan. 23.

Sunday night was the coldest here since 1857 and a gale from the Northwest. The thermometer was nearly down to zero at sundown and 12° below at sunset this morning.

LOWELL, Mass., Jan. 23.

The thermometer at sunrise was from 8° to 12° below in different localities.

BOSTON, Mass., Jan. 23.

Severely cold weather is reported from all quarters this morning. Boston 6° below, Portsmouth, N. H., and Lowell 12° to 15° below.

MT. WASHINGTON via Littleton, N. H., Jan. 23.

The following are the observations taken at 10 a. m.:

Barometer 23° 16'; thermometer 26° below zero; relative humidity, 16; wind Northwest; velocity 60 miles per hour. Yesterday at 7 a. m., the thermometer was 5° below. It continued to fall till at midnight it was 45° below. The clouds passed off the mountain at 6 p. m. It was perfectly clear all night, but the wind blew fearfully. The frozen joints of the house as they were started by the wind, gave a report like the discharge of a small piece of artillery, but the house seems nevertheless to be secure.

POUGHKEEPSIE, N. Y., Jan. 23.

The cold increases. The thermometer this morning stands 4° below zero. The river is frozen over from here to Peekskill.

TORONTO, Can., Jan. 23.

The weather is intensely cold with strong wind and snow. Thermometer indicates 17° below, and in Montreal this morning it was 26° below zero.

### FROM HAVANA.

HAVANA, Jan. 23.

Information has been received of the landing of ten filibusters in Rio De La Palma.

In Vulta Abajo region two men were captured, and also a boat containing 48 Remington guns and copies of the proclamation signed Quesada.

Special to N. Y. Herald—

Havana, 23. An encounter took place in the Pacific, the exact locality not being given about the 20th of December last, between the Prussian frigate Medusa and 2 small French gunboats. The Curieux and Bruiox, resulting in the sinking of both the French vessels. The Curieux carried four brass twelve pounders and one 24 pounder, while the Prussian ships was armed with 13 guns of heavy calibre. The French frigate Cercel left Montevideo in search of the Medusa, immediately on receiving the news.

### FROM WASHINGTON.

WASHINGTON, Jan. 23.

The President to-day nominated Geo. L. Woods of Oregon, Governor of Utah; James A. Hall, Collector of Customs at Waldoboro, Me.; and Charles O. Sheppard, Consul at Kanagawha, Japan.

The Supreme Court to-day, reversed the decision of the Circuit Court for the district of Connecticut, and ordered a new trial in the case of Barnard vs. Kellogg. Barnard was a commission merchant in Boston, and received from Buenos Ayres a quantity of wool, on which he paid advances and placed it in the hands of brokers with the instructions not to sell unless the purchaser examined the wool personally, subsequently a sale was made to E. N. Kellogg & Co., of N. Y., who made a personal inspection of the wool, and after examining several bales, declined to look at more, nearly a year afterwards Kellogg & Co, notified Barnard that the wool was falsely packed. On trial it was shown by the custom of wool dealers in New York and Boston, that there is warranty by the seller implied by the fact of sale that the wool was not falsely packed. The Court sustained the custom, and decided in favor of the purchaser.

## LOCAL AND OTHER ITEMS

—Ice-creepers are popular.

—The days are nearly 10 hours long.

—The new moon was visible last evening.

—It is safe to say that the river is closed to navigation.

—If you are blest with chilblains, bathe the feet in cold water.

—Sawyer's new steam-mill at Bradley is now completed and ready for work.

Most of the stages running to and from this city, have been on wheels for several days past.

—A Division of Sons of Temperance is to be instituted in Foxcroft this week.

—A year ago to-day the Monarch arrived at Portland, with the remains of George Peabody.

—Frozen ears were quite fashionable yesterday among the stage drivers and teamsters.

—The latest slang phrase is, "You know how it is yourself," which perhaps you didn't know.

—Sleigh-riding was not extremely popular, yesterday, and people did not prolong their drives more than was necessary.

—Our correspondent writes that the students at the Bradley High School have organized a Debating Club, which promises to be a source of great improvement to the school.

—We learn that the horses attached to the hack of the Foxcroft Exchange were frightened by the engine, on the arrival of the Saturday night train, and running a short distance, overturned the vehicle. Two ladies and two gentlemen occupied the hack and fortunately escaped with slight bruises, but the driver, Mr. Geo. H. Greely, fell under the carriage and was so badly injured internally that he bled from a ruptured vessel in the stomach or lungs, all Saturday night and Sunday. Yesterday morning his condition was reported more favorable.

—The weather yesterday was cold enough to satisfy the most fastidious Esquimaux. At sunrise the mercury stood at 24° below zero; at 10 o'clock, 15° below; at noon, 10° below; at 3 p. m., 8° below; at 6 p. m., 8° below, and at midnight 10° below. The wind blew a gale from the Northwest, which made the temperature appear much lower. It will be seen by our telegraphic columns that we have very little to boast of, compared with other places.

NATIONAL INSURANCE COMPANY. The Stockholders of the National Insurance Company elected the following Directors for the ensuing year, at a meeting at the Company's office in Schwartz Block, yesterday afternoon: Michael Schwartz, Samuel H. Blake, John E. Godfrey, Wm. T. Pearson, John Littlefield, Hiram Ruggles and L. M. Partridge. At a meeting of the Directors, the following officers were chosen: Michael Schwartz, President; Herbert Fuller, Secretary; George P. Field, Assistant Secretary; H. Harriman, Marine Inspector.

AGRICULTURAL COLLEGE. The land scrip in aid of the State College of Agriculture and Mechanic Arts, at Orono, was sold in two lots, the first of which realized about $104,500. There had accumulated upon this before any had been used for its legitimate purpose about $10,000. The second sale of land scrip realized about $16,000, thus making the endowment fund of the college, from the General Government, something over $120,000, the interest of which, only, can be used for purposes of instruction. It is probable that the salaries of the present force of professors and teacher have not yet been such as to use up the interest, and something has without doubt been accumulating from this source to be added to the general fund. The income of this sum is sufficient to keep the college well provided with competent instructors. The appointment of Ex-Governor Chamberlain as President of the College is talked of.

DOG IN THE WATCH HOUSE. Scene on Hammond street Sunday p. m. Wind blowing great guns. Gent with bran-new hat—Big Newfoundland dog. Wind takes hat and sends it whirling. Gent follows lively. Dog joins in the race and comes out ahead. Dog grabs hat and gent grabs dog. Gent falls. Dog gets away, dodges under a fence and quietly sits down and proceeds to chaw hat. Gent excited: calls to dog—"Here Sir! good fellow! Come here sir!!" &c. Dog don't see it—insensible to moral suasion. Gent gets over fence. Dog starts off with hat. Gent throws sundry sticks and chunks of ice after dog; also sundry profane words, quite appropriate to the occasion but inappropriate to the person and the day. Gent very mad.—Chases dog "over the hills and far away." Catches dog by flank movement. Whack! Whack! Yelp! howl!! Hat chawed into shoddy. Thermometer 10° below zero. Gent goes to house and borrows a hat.

Next morning—scene the same. Gent sees dog. Recognizes canine adversary; calls, coaxes, wheedles. Dog innocent and confiding; not up to the "hypocrisy of mankind." Gent takes dog to Watch House and says to policeman "Hang on to that dog until his owner comes and pays for that hat. If no one claims him, punch a hole in him." Exeunt omne.

THE "PRAISE MEETING." *Mr. Editor*,—A word of description of the "Praise Meeting" of Sabbath evening may not be uninteresting to your readers. Notwithstanding the intense cold, Hammond street church was filled at an early hour. After appropriate opening exercises, a prayer by Rev. Geo. W. Field, and a few remarks by Prof. Tourjee, we began to praise, led by the organ, under the skillful hand of Mr. Livermore. I say *we*, for the Professor believes and tries to impress upon his audience that "all things that have breath" should, and can "praise the Lord," nor was he on this occasion altogether unsuccessful, if the writer may judge from his own experience. The hymns consisted of selections from the grand old Chorals, which have been for generations the delight of those whose hearts prompted them to praise; added to which were a few of the choicest of more modern hymns. The singing was grand! the rendering of such good old tunes as "Martyn," "Federal Street," "Rock of Ages," etc., gave evidence that the "spirit of praise" still lives in the hearts of the people. The manner in which "I love to tell the story" and "Good Night," were sung by Prof. Tourjee evinced that "Praising" with a great congregation does not in any degree detract from individual ability. I cannot forbear to add the earnest hope that the meeting of Sabbath evening but foretokened many of a similar character, that shall be held in this city and elsewhere. There is a great and as yet undeveloped power in Christian song; experience shows that it will touch hearts hardened against all other approaches. Those who heard the able and eloquent lecture of Prof. T. during the day, will remember many illustrations in point.—The objection that this mode of song-worship will lower the standard of musical excellence, is without foundation; it is not intended to supersede the singing of trained choirs, but only to give the people their rightful share in the service of song. Let us then have praise meetings, mass meetings—this will fill our largest churches and seek larger, and once [illegible]

—The Kennebec ice dealers expect to have all their ice houses filled this week.

—The Calais Advertiser says there were 98 deaths in that city during the past year; the larger part of this number were children.

—The Inspector General of Fish for the State of Maine, reports the whole number of barrels of mackerel inspected during the past season as 51,013 as follows: Belfast, 337; Boothbay, 5,108; Camden, 2,490; Deer Isle, 4,587; Eastport, 313; Matinicus Plantation, 218; North Haven, 569; Portland, 37,113; South Thomaston, 20; Southport, 765; Vinalhaven, 33; Westport, 67. Of all other kinds of pickled fish there have been inspected, of herring, 8,385 barrels; alewives, 25; shad, 286; cod, 321; haddock, 434; sunfish, 262; tongues and sounds, 95; fins, 4; blue fish, 18; menhaden, 425. Of smoked herring there have been inspected 29,290 boxes, as follows: Eastport, 25,784 boxes; Addison, 3,512 boxes.

—Maine has been represented in Congress in the House, by sixty-nine lawyers, nineteen merchants, six farmers, two physicians, two clergymen, three manufacturers, two editors, one contractor, and one mechanic; for the 31st Congress, by seven lawyers, and in the 25th, by six lawyers and four merchants.

—Messrs. Case & Kimball, of Rockland, were in Houlton last week for the purpose of effecting a contract for 40,000 railroad sleepers to be used on the Knox & Lincoln railroad.

—The City of Richmond has been withdrawn from the route between Portland and eastern ports for the winter. The business doesn't pay, says the Camden Herald.

—A Rockport store-keeper shot at a rat, the other day, and killed his half-grown pig, which was quietly snoozing in another part of the pen.

### SUPREME JUDICIAL COURT—JANUARY TERM.

KENT, J., presiding.

Monday, Jan. 23, 1871.

Betsey Ramsdell vs Elvaton P. Butler.

Action to recover money held in trust for the person properly entitled to receive it and involving title to certain real estate. After the evidence was closed the case was made Law upon report of the evidence.

N. Wilson, Paine. Peters & Wilson.

Orrilla P. Trask vs Joshua H. Trask.

Libel for divorce. Cause, abuse, and violence, founded in part upon jealousy. The defense aimed to prove sufficient cause for jealousy. Divorce decreed; custody of the children given to the mother, with certain conditions and restrictions and the father to have the right to see them at stated times.

J. F. Godfrey. G. W. Pratt.

Court adjourned to Monday, the sixth day of February.

Reported for the Whig and Courier.

## MAINE LEGISLATURE.

AUGUSTA, Me., Jan. 23.

SENATE.

Our Senate report has failed to come to hand. The telegraph reports that the Judiciary Committee reported a bill to repeal the act of 1870, adopting the revision of the statutes. The same committee then reported a bill to make the printed volume with verbal amendments the Revised Statutes.

There are "defects" in the new statutes so serious that it will be necessary to reprint about sixty pages. This, however, will cause no delay, for it can be done while the index is being made.

HOUSE.

The following petitions &c., were presented and referred.

Petition of citizens of Corinth for incorporation of Penobscot Central Agricultural Society; of inhabitants of Cherryfield for authority to encourage by pecuniary assistance manufactures, or industrial enterprises in said town; of Trustees of Presque Isle Academy for aid to erect buildings.

*Orders*—

The expediency of authorizing clerks of courts to furnish all Trial Justices in their respective counties, blank writs and mittimuses, also the expediency of allowing manufacturers to flow marshes of salt water rivers, damage to land owners to be decided by Co. Commissioners; also expediency of exempting from taxation town insurance Companies; also expediency of protecting by law the bridges over Aroostook river; also expediency of requiring the same judge to preside at least at two successive terms of the S. J. Courts in any county, unless prevented by sickness, or otherwise; also the expediency of providing that no person shall recover damages on account of defective highways, who has his residence in a place where no such liability on the part of town exists.

Mr. Pike laid the following on the table which was ordered to be printed.

Ordered, That the Judges of the S. J. Courts be requested to furnish the House with their opinion upon the following questions:—

1. Has the Legislature authority under the Constitution, to pass laws enabling towns by gifts of money or loans of bonds to assist individuals or corporations, established or carrying on manufacturing of various kinds within or without the limits of said towns?

2. If so, can the towns act by majority vote of such votes as may be presented at a special meeting called for the purpose, or must a larger number act affirmatively?

3. If there be a manufactory established and in operation in a town in this State, can the voters of that town be authorized by the Legislature to establish a rival manufactory which shall tend to injure that in operation, and oblige the proprietors of the same to pay for their own detriment by taxing them to support the new and rival factory?

4. If a town may be authorized by the Legislature to assist corporations, and to establish manufactories, may it also be authorized to go farther, and establish such manufactures entirely on its own account, and to run them either by the ordinary town officers or by agents to be designated in the ordinary primary party conventions selected in town meetings?

5. If the authority specified in the first question exists, is there any limit to the proportion of the valuation of towns that may be put into manufacturing enterprises, or may a sum equal to the whole of the property of the town be so pledged?

The following bills were reported from Committees, and read and assigned.

Bill an act authorizing Wm. W. Danforth to erect a wharf in Bristol; an act to incorporate the Kennebec & Moosehead Ice Co.; an act to incorporate the Maine Medical Eclective Infirmary; an act to make valid the doings of Castle Hill.

*Passed to be engrossed*—

Bill an act to incorporate the Old Orchard R. R. Co.; an act to prevent the throwing of refuse lumber into Violet Brook; an act to authorize Zenas Yates et als., to extend their wharf in Muscongas Harbor.

*Passed to be enacted*—

An act to authorize the Lincoln Ice Co., to increase their capital stock.

Adjourned.

A CONFIDENCE WOMAN. Mrs. Mary C. Miller, a notorious confidence woman, was arrested in a pawn shop in Broome St., N. Y., Saturday, for robbing Mrs. Mary K. Bishop and her two daughters of Providence, R. I, of nearly $5000 worth of clothing, jewelry, etc. She gained Mrs. Bishop's confidence, by pretending to be the wife of a Louisiana planter, boarding at the Grand Central. She is the same woman that robbed Surrogate Hutchings' house and was sent to Blackwell's Island. She says she is the daughter of a noted divine.

ARREST OF A BOLD FORGER. The famous forger, Louis M. Van Etten, recently arrested at New Orleans for altering a check on Hallgarten & Co., of New York city from $1,000 to $77,000, reached the latter city on Sunday, under charge of Detective Sampson. Van Etten's friends in New Orleans made great efforts to secure his release, but, although they obtained a writ of habeas corpus in favor of Van Etten, issued by the U. S. Court, Sampson refused to give up the prisoner. [illegible]

—Jefferson F. Long (colored) was admitted by the House on Monday, as Representative from Georgia.

BUSINESS ITEMS.

THE CATALACT WASHING MACHINE, which is now on exhibition at the Red Store, corner of State and Exchange streets, excites general attention, and we hear it spoken of by scientific men, as being a decided success. Clothes washed perfectly clean and white in four minutes. It is being tested every day, and we would say to the public, go and see the wonderful machine and satisfy yourselves that there is a perfect Washing Machine.—This machine will dispel the horrors of washing day and cold dinners. 1t

COUGHS. The administration of medicinal preparations in the form of a *lozenge* is of all modes the most eligible and convenient, more especially as regards a COUGH REMEDY.—*"Brown's Bronchial Troches,"* or Cough Lozenges, allay irritation which induces coughing, giving instant relief in Bronchitis Influenza, Hoarseness, and Consumptive and Asthmatic complaints.

FROM NUMEROUS CASES of Dyspepsia and Constipation, cured by the use of FELLOW'S COMPOUND SYRUP OF HYPOPHOSPHITES after every other known remedy had been used in vain, its efficacy in restoring the functions of Digestion and Evacuation is manifest.

AN ENEMY IN YOUR MOUTH. Do not put an enemy in your mouth to steal away your teeth. Beware of destructive tooth washes, and tooth powders, many of which are base imitations of SOZODONT. Insure a life lease of sound teeth and fragrant breath, by adopting the fragrant SOZODONT.

"SPALDING'S GLUE," handy about the house, men is everything.

ARE YOU GOING TO ROCKLAND?—If so you will do well to remember that the Lynde Hotel, completed this year, is a new, comfortable, well kept house. Rooms are all pleasant; tables well supplied, and no pains spared to accommodate the public.

FEBRUARY.

ATLANTIC, and YOUNG FOLKS, received by jan20 D. BUGBEE & CO.

The strongest and best secured, as well as most profitable investment now offered in the market.

7 Per Cent Gold.

FIRST MORTGAGE BONDS

Coupon or registered, and free of U. S. tax, principal and interest payable in gold, issued by the

Burlington Cedar Rapids and Minnesota Railroad Co.

The small remaining balance of the Loan for sale at 90 AND ACCRUED INTEREST IN CURRENCY.

Interest Payable May and November.

J. EDGAR THOMSON, CHARLES L. FROST, Trustees.

The Bonds are issued at $20,000 per mile against the portion only of the line fully completed and equipped.

The greater part of the road is already in operation, and the present earnings are largely in excess of the operating expenses and interest on the Bonds. The balance of the work necessary to establish through connections, thereby shortening the distance between St. Paul and Chicago 45 miles, and 90 miles to St. Louis, is rapidly progressing, in time for the movement of the coming grain crops, which, it is estimated, will double the present income of the road.

The established character of this road, running as it does through the heart of the most thickly settled and richest portion of the great State of Iowa, together with its present advanced condition and large earnings, warrant us in unhesitatingly recommending these Bonds to investors as, in every respect, an undoubted security. A small quantity of the issue only remains unsold, and when the enterprise is completed, which will be this Fall, an immediate advance over subscription price may be looked for.

The Bonds have 50 years to run, are convertible at the option of the holder into the stock of the Company at par, and the payment of the principal is provided for by a sinking fund. The convertibility privilege attached to these Bonds cannot fail to cause them at an early day to command a market price considerably above par. U. S. Five-twenties, at present prices, return only 4½ per cent. currency interest, while these Bonds pay 8½ per cent. and we regard them to be as safe and fully equal as a security to any Railroad Bond issued; and until they are placed upon the New York Stock Exchange, the rules of which require the road to be completed, we obligate ourselves to re-buy at any time any of these Bonds sold by us after this date at the same price as realized by us on their sale.

All marketable Securities taken in payment free of Commission and Express charges.

Lubricating Oil,

Suitable for Lumber Mills, Railroads, and all kinds of Machinery.

It does not gum or chill in the coldest weather, and wears equal to Lard Oil. The above oil is carefully prepared and perfectly free from grit or any kind of sediment and is put up in new barrels holding about 47 gallons each, and sent to any part of the United States, on receipt of fifteen dollars per barrel. Mill owners and others wishing to secure a good oil, of uniform gravity and quality, can order directly from me, thereby saving all profits of dealers.

The money can be sent directly to me, or to the First National Bank of this place, payable to me on presenting the shipping bill to them.

Money Cannot Buy It

For Sight is Priceless!

THE DIAMOND GLASSES,

Manufactured by J. E. SPENCER & CO., New York which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the MOST PERFECT, Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

The Scientific Principle on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner, in frames of the best quality, of all materials used for that purpose. Their finish and durability cannot be surpassed.

CAUTION.—None genuine unless bearing their trade mark <> stamped on every frame.

LOWELL & SPENCER,

Jewelers and Opticians, are Sole Agents for Bangor Maine, from whom they can only be obtained. These goods are not supplied to Peddlers, at any price.

### MARGUERITE

What aileth the pretty Marguerite?
Such April moods about her meet
She sighs and yet she is not sad
She smiles with naught to make her glad

A thousand flitting fancies chase
The sun and shadow on her face;
The wind is not more light than she,
Nor deeper the unsounded sea

What aileth pretty Marguerite?
Doth no one discern her secret sweet?
Yet earth and air have many a sign
The heart of maiden to divine

In budding leaf and building nest
In kindred mysteries half confest
And who so hath the gift of sight
May Nature's riddle read aright

Not all at once the lily's heart
Is kissed by wooing waves apart
Not in a day the lavish May
Flings all her choicest flowers away

Fair child! shall potent love alone
Forget to send his herald on?
Ah happy lips that dare repeat
What aileth pretty Marguerite?

—[Harper's Magazine for February

A CURIOUS STORY Not many days ago there was a fashionable marriage in one of our up town churches The bridegroom was a remarkably handsome man, nearly thirty years of age, well known to what is called fashionable society as an agreeable, liberal bachelor and "ladies man" The bride was a lovely girl belonging to one of our best known families and esteemed for her character as much as admired for her beauty The families of both were present, and nothing [illegible] occurred at the ceremony, save that all present remarked upon the appearance of the bridegroom He was apparently so oppressed by some great sorrow or anxiety that he could not smile nor command a cheerful word

The pair had spent but a few days together when the husband after an interview with [illegible] with which left her almost crushed [illegible] hastily called at his late bachelor rooms which he had not given up, burned a large number of papers packed up a few precious articles and suddenly disappeared, and no one of his friends now knows where he is to be found

But one dreadful truth reached their ears too quickly At one of our new hotels in the [illegible] of the city but a few blocks from the church in which the marriage was performed there were found a woman and several children bearing his name and she found no difficulty in establishing her right to it She is twenty years older than he They were married when he was scarcely more than a boy, and have never published the marriage, but they never quarreled nor separated He still supported and visited her and on the very day of the second marriage at noon, he made her a long visit in his usual manner

This event has been a sudden shock to both families and the absolute concealment of his marriage from all his friends for many years, while his wife and children openly bore his name in the public hotels in this city, is as [illegible] table to them as it will be to others The young man was for several years an internal revenue officer in this city, but for some years past has been employed in a bank down town He paid $3,000 a year for the board of his wife and children, while receiving a salary of only $2,000, and has yet maintained his bachelor life with lavish expenditure In his rooms are said to have been not far from 100 suits of clothes, with expensive books and many other evidences of wealth but his accounts at the bank are said to be entirely correct His full understanding of what he was doing appears from the fact that he carried to the altar a pistol, with the fixed purpose as he afterward said of blowing out his brains there if the ceremony should be interfered with —[New York Evening Post

The Pennsylvania Supreme Court has decided that if a man puts his head or arm through the car window, and is injured by coming in contact with something which reaches close to the window, he cannot recover for the injury the act being considered negligence on the part of the passenger

A Chicago widow, anxious to renew matrimonial obligations, conveyed $1,800 worth of real estate to to a druggist on condition he would marry her He took the price of his heart and hand, and has refused to delivered up or reconvey the property She has brought suit and wants either the man or the money

The London Shipping Gazette is alarmed over the fact that during the recent experiments with torpedoes in the Elbe, some of them broke loose and floated into the ocean It thinks there is a possibility of some vessel coming in contact with one of these stray monsters that "would not pay the slightest respect to neutral bottoms."

A scoffer, residing in Hartford, Conn, who has been contending that he could not learn from the most careful reading of the papers what good the scientific party on Mount Washington is doing, was dumbfounded last Saturday when he learned by the daily report that they have discovered "a snow-flake of a heretofore undescribed form."

**Mr Blair, of Pennsylvania, treed a fox in a huge stump, fifteen feet high. In climbing after the beast the wood, being rotten, broke from his hold and he fell inside to the bottom, the cunning animal making his escape and leaving Mr Blair in the trap he had intended for itself. After thirty-six hours' laborious work with a pen-knife the luckless hunter succeeded in whittling himself out.**

| Indisposition to Exertion, | Loss of Power, |
| Loss of Memory, | Difficulty of Breathing, |
| Weak Nerves | Trembling |
| Horror of Disease | Wakefulness, |
| Dimness of Vision, | Pain in the Back, |
| Hot Hands, | Flushing of the Body, |
| Dryness of the Skin | Eruptions of the face |
| Universal Lassitude | Pallid Countenance |

of the Muscular System

These symptoms if allowed to go on (which this Medicine invariably removes) soon follow—

FATUITY, EPILEPTIC FITS, &c,

In one of which the patient may expire Who can say they are not frequently followed by those "dire ful diseases,

INSANITY AND CONSUMPTION."

Many are aware of the cause of their suffering but none will confess The records of the insane asylums and the melancholy deaths by consumption bear ample witness to the truth of the assertion

The Constitution once affected by organic weakness requires the aid of medicine to strengthen and invigorate the system, which H T HELMBOLD'S EXTRACT OF BUCHU invariably does A trial will convince the most sceptical
